Product Description

FX20VE and FX20EIPX4 are wall mounted fan heaters designed to forcibly blow the heated air down into the heating space to effectively circulate and rapidly heat the area for a 30 minute period. Both models feature pull cord activation with auto switch off (after 30 minutes) or deactivation by pull cord if required sooner

Key Features

- Adjustable output at time of installation (1kW or 2kW)
- Factory-set 30 minute runback for ease of use and energy savings
- Pull cord operation
- Complies with Lot 20 of ERP directive

FX20VE

FX20EIPX4
