

**Sunningdale**

**Experience Better Living**

**Stoves**

The Sunningdale is an opulent electric stove featuring ultra realistic Opti-V flame technology which is unlike any other flame effect. Opti-V is the first and original virtual flame technology, patented by Dimplex. This stunningly authentic fire experience requires no maintenance and delivers a flame image equal to that of a traditional fire, with no emissions and in total safety. It delivers a virtually perfect flame effect through a magic combination of High Definition video and LEDs.

Sunningdale is the perfect combination of ambience and warmth due to the integrated electric heater option offering up to 2kW of heat. The flame effect can be used without the heat allowing you to enjoy your fire all year round creating the perfect fireplace in your home. The dancing flames and jumping sparks combined with the LED glowing log fuel bed and crackling log sound effect delivers an extraordinary realistic flame experience.

Quick and easy to install, the Sunningdale simply needs to be plugged in to deliver its unique flame effect and all the features can be adjusted from the remote control, or by using the manual controls behind the opening door on the stove.

The Sunningdale electric fire is the epitome of style with its sleek modern design and will add a touch of elegance to any room.

**Opti-V flame technology.**  
The first virtual flame technology on the market, patented by Dimplex

**LCD screen.**  
Using an LCD screen in combination with pepper ghost effect, an energy efficient flame effect is created

**2kW heat output.**  
Offering up to 2kW of heat via a fan heater with two heat settings

**LED log effect fuel bed.**  
Comes with LED log effect fuel bed

**Remote control.**  
Controlling all functions of the stove

**Manual control.**
