XLE STORAGE HEATER

An advanced electric storage heater, developed in response to Lot 20 regulations and to supersede the XLS and CXL ranges. With a clean look and reliable performance, it provides an upgraded and compliant replacement for older storage heaters.

- Efficient heating system with low running costs delivered by maximising the use of off-peak tariffs
- Dynamic storage capacity - automatically adjusts to user requirements
- Controllable electronic heat output to match user lifestyle
- Quiet fan assisted heat output
- Good heat retention and responsiveness in SAP

DTD Alta Wi-Fi Panel Heaters

The DTD Alta panel heater features built-in Wi-Fi with direct connection to your network, allowing the panel to be controlled remotely via our Capa Connect App. This range also includes intuitive user controls and 7-day timer profiles. The DTD2R is a low profile version of the panel, conveniently sized for use on short walls or under windows. The Alta panel heater can be paired with our Clip-On Glass accessories which are available in White & Anthracite colours.

- Modern panel design with top outlet grille for optimum heat circulation
- Wi-Fi connected product
- Customisable heating time and temperature settings
- Smartphone controllable via the CAPA Connect APP

Dimplex Control

Control and monitor your heating and hot water with Dimplex Control. Group heaters into zones to easily control and track their energy usage. Any time. Anywhere.

- **Zoned control** - Quickly view and change heating mode.
- **Easy set-up** - The app features a step-by-step setup wizard so you can start using the system quickly without having to leave the app.
- **Control your hot water** - See how much hot water is available at the set temperature (Requires a compatible Dimplex Quantum Water Cylinder OWCd).
- **Monitor energy usage** - by heater, zone or site with an hourly, 7 day, 28 day and annual view.
- **Remote access** - Monitor and control your heating from anywhere in the world using the Dimplex control app and a mobile data connection.
- **Support** - See faults reported on the app and request help using service mode.
